Internship

Data Analyst Intern

June 2024 - Aug 2024

Futureense Technologies

- Analyzed **90,000+** candidate application records of **US Pathway** to uncover trends in academic and financial activity.
- Applied **12+ DAX Functions** to calculate key metrics, eligibility patterns, and decision insights.
- Designed and developed **Interactive dashboards** for Loan, Educational and Financial Analysis using **Power BI**.
- Delivered **real-time insights** into behavioral patterns, application drop-offs, and financial risk categories.
- Implemented stacked bar charts, line charts, funnel charts, and tables for comprehensive data visualization.
- Enhanced **decision-making** by enabling stakeholders to monitor trends and assess candidate eligibility effectively.

Projects

Restaurant Ratings Prediction | Python, Streamlit

Dec 2024 - Feb 2025

- Developed a restaurant rating prediction model based on various factors such as cost for two, availability of online booking, table reservations, and price range.
- Performed **data analysis** to extract key insights and trends in restaurant ratings.
- Applied **feature engineering techniques** to improve model performance by selecting the most relevant attributes.
- Designed an interactive web application using Streamlit to allow users to input restaurant details and predict ratings in real time.
- Created a user-friendly Streamlit-based UI for seamless user interaction.
- Gained hands-on experience in end-to-end data science workflow, from data preprocessing to deployment.

Retail Analytics Dashboard | SQL, MySQL Workbench, Power BI

Sep 2024 - Nov 2024

- Designed a **structured database** for an online retail store, including tables for **Customers, Orders, Products, and Payments**.
- Performed data cleaning using SQL functions to handle missing values and inconsistencies in sales data.
- Identified **peak sales months** and high-demand products using SQL queries.
- Optimized query performance using indexes and views for faster reporting.
- Generated a **customer segmentation report** based on purchasing frequency and total spend.
- Designed an interactive Power BI dashboard to visualize key sales insights.

Certificates

Azure Data Scientist

Dec 2024

Microsoft- <https://learn.microsoft.com/api/credentials/share/en-us/AKSHAYAVARDHINIGOUDPULIGARI-0187/4BBCBE6643035C34?sharingId=F520FDF1FD11D536>

Azure Data Fundamentals

Feb 2025

Microsoft- <https://learn.microsoft.com/api/credentials/share/en-us/AKSHAYAVARDHINIGOUDPULIGARI-0187/B5A4883CC94EC30E?sharingId=F520FDF1FD11D536>

Technical Skills

Languages: Python, SQL, C, C++

Technologies/Frameworks: My SQL, MS Excel, Power BI, Google Colab, Jupyter Notebook, GitHub

Skills: Data Structures and Algorithms, Problem-Solving, Data preprocessing, Data Analysis

Education

Lovely Professional University Punjab

Since 2022

Computer Science and Engineering — CGPA: 7.26

Jalandhar, Punjab

Sri Chaitanya Junior College

2020 – 2022

12th with PCM — Percentage: 96.10%

Hyderabad, Telangana

Sri Chaitanya Techno Curriculum

2019 – 2020

10th with PCM — CGPA: 10

Hyderabad, Telangana
